Title: The Missing Color

Text:

Eli's mural design showed the community garden in late summer: orange squash, purple beans, and red tomatoes beneath a bright blue sky. On painting day, however, he discovered that the box of supplies contained no blue paint.

"We can postpone the sky," suggested Mina, his partner. But rain was forecast for the next afternoon, and the outdoor wall needed time to dry. Eli looked at the remaining colors. Mixing green and white produced mint, not blue. Black made it muddy.

Mina held a sheet of silver paint samples against the wall. "What if the sky isn't daytime?" she asked.

They covered the upper half of the mural with deep violet, then added silver dots and a pale moon. The vegetables below seemed brighter against the evening sky. Children passing through the garden began pointing out shapes they imagined among the stars.

When the mural was finished, Eli found the missing blue jar behind a supply crate. For a moment, he pictured painting over the violet. Then a child announced that three silver dots looked exactly like a watering can. Eli closed the blue jar and placed it back in the box.

Stimulus Type: Informational Passage

Title: The Return of the Oyster Reef

Text:

Oysters are often thought of only as seafood, but living oysters can build reef-like structures in shallow coastal water. Young oysters attach to hard surfaces, including older oyster shells. Over time, layers of shells form a rough habitat where small fish, crabs, and other organisms can shelter.

Oyster reefs can also change the movement of water. Their uneven surfaces slow some waves before those waves reach the shore. This does not make reefs an absolute barrier against storms, but it may reduce everyday erosion in suitable locations. As oysters feed, they draw water across their gills and remove tiny particles, which can improve water clarity.

In places where reefs have declined, restoration teams may place cleaned shells or specially shaped blocks on the bottom. These materials give young oysters a firm place to settle. Teams must choose sites carefully. Water that is too fresh, too polluted, or too deep may not support a healthy reef.

Restoration takes time, and results vary. A successful project depends on water conditions, oyster survival, and continued monitoring. When those factors align, a restored reef can provide habitat while becoming part of a coastline's natural protection system.

- B) The materials must be removed every evening.
- C) Fish must be prevented from entering the reef.
- D) Monitoring causes water to become saltier.

STIMULUS START

Stimulus ID: HSPT-R2-S03

Section: Reading Comprehension

Stimulus Type: Humanities Passage

Title: Learning Through Imitation

Text:

Imitation is sometimes dismissed as the opposite of creativity. Yet copying a model has long been one way people learn difficult skills. A beginning musician repeats a teacher's

phrasing; a young athlete studies an experienced player's movement; an art student may sketch a sculpture to understand its proportions.

Useful imitation is not mindless duplication. The learner must notice decisions that an expert performs almost automatically. Where does the musician pause? How does the athlete shift weight? Which lines make the sculpture appear balanced? Attempting the same choices makes hidden techniques easier to see.

Eventually, a learner must adapt what has been observed. A pianist's hands differ from a teacher's, an athlete faces changing opponents, and an artist develops individual purposes. A copied method becomes limiting if it is never adjusted.

The relationship between imitation and originality is therefore not a simple contest. Imitation can provide a temporary structure, much as a railing supports someone learning to climb a steep staircase. The railing is valuable because it assists movement, not because the climber should hold it forever. In the same way, studying a model can help a learner gain enough control to make independent choices.

ANSWER KEY + EXPLANATIONS

VERBAL SKILLS ANSWERS

HSPT-V2-001 — Correct: B — Correct Answer: sensible — Explanation: Prudent means showing careful judgment, so sensible is the closest synonym.

HSPT-V2-002 — Correct: A — Correct Answer: begin — Explanation: To commence an activity is to begin it.

HSPT-V2-003 — Correct: C — Correct Answer: apparent — Explanation: Evident means clearly seen or understood, which is apparent.

HSPT-V2-004 — Correct: D — Correct Answer: pessimistic — Explanation: Optimistic means expecting favorable results, while pessimistic means expecting unfavorable results.

HSPT-V2-005 — Correct: A — Correct Answer: forbid — Explanation: Permit means allow, while forbid means refuse to allow.

HSPT-V2-006 — Correct: C — Correct Answer: deep — Explanation: Shallow describes little depth, and deep is its direct opposite.

HSPT-V2-007 — Correct: A — Correct Answer: observe — Explanation: A keyboard is used to type, while a telescope is used to observe.

HSPT-V2-008 — Correct: B — Correct Answer: courtroom — Explanation: A chef works in a restaurant, just as a judge works in a courtroom.

HSPT-V2-009 — Correct: D — Correct Answer: wood — Explanation: Flour is produced from wheat, while paper is produced from wood.

HSPT-V2-010 — Correct: C — Correct Answer: kilogram — Explanation: Gallon, liter, and quart measure capacity; kilogram measures mass.

HSPT-V2-011 — Correct: B — Correct Answer: candid — Explanation: Honest, truthful, sincere, and candid all describe openness and truthfulness.

HSPT-V2-012 — Correct: C — Correct Answer: They are months. — Explanation: January, April, and October are all months of the year.

HSPT-V2-013 — Correct: D — Correct Answer: triangle — Explanation: Star comes before circle, and triangle follows circle, so triangle must be last.

HSPT-V2-014 — Correct: A — Correct Answer: Key R is not copper. — Explanation: Every copper key opens P; since R does not, it cannot be copper.

HSPT-V2-015 — Correct: B — Correct Answer: Thursday — Explanation: Mira rules out Tuesday and Leo's absence rules out Saturday, leaving Thursday.

QUANTITATIVE SKILLS ANSWERS

HSPT-Q2-001 — Correct: C — Correct Answer: 57 — Explanation: The increases are 3, 6, 9, and 12; the next is 15, so $42 + 15 = 57$.

HSPT-Q2-002 — Correct: B — Correct Answer: 1,250 — Explanation: Each term is multiplied by 5, so $250 \times 5 = 1,250$.

HSPT-Q2-003 — Correct: A — Correct Answer: 9 — Explanation: The sequence subtracts 3, 6, 9, and 12; subtracting 15 next gives 9.

HSPT-Q2-004 — Correct: D — Correct Answer: 74 — Explanation: The operations alternate $+3$ and $\times 2$; therefore $37 \times 2 = 74$.

HSPT-Q2-005 — Correct: A — Correct Answer: 20 — Explanation: The six positive factors of 20 are 1, 2, 4, 5, 10, and 20.

HSPT-Q2-006 — Correct: B — Correct Answer: \$35 — Explanation: Each notebook costs $\$14 \div 8 = \1.75 , and $20 \times \$1.75 = \35 .

HSPT-Q2-007 — Correct: C — Correct Answer: 63 — Explanation: Thirty percent of 90 is 27, so $90 - 27 = 63$.

HSPT-Q2-008 — Correct: C — Correct Answer: The two quantities are equal. — Explanation: $7/9 + 1/6 = 14/18 + 3/18 = 17/18$.

HSPT-Q2-009 — Correct: D — Correct Answer: The relationship cannot be determined from the information given. — Explanation: The relationship changes with p ; for example, $p = 0$ and $p = 10$ give different results.

HSPT-Q2-010 — Correct: B — Correct Answer: Quantity B is greater. — Explanation: Quantity A is $12 + 3 = 15$, while Quantity B is 16.

HSPT-Q2-011 — Correct: A — Correct Answer: Quantity A is greater. — Explanation: Each side is $45 \div 5 = 9$ units, which is greater than 8.

HSPT-Q2-012 — Correct: B — Correct Answer: Quantity B is greater. — Explanation: Quantity A is 70° , while Quantity B is $50^\circ + 60^\circ = 110^\circ$.

HSPT-Q2-013 — Correct: D — Correct Answer: The relationship cannot be determined from the information given. — Explanation: The volume is $10h$, so its relationship to 30 depends on the unspecified height h .

READING COMPREHENSION ANSWERS

HSPT-R2-001 — Correct: B — Correct Answer: Rain is expected, and the wall needs drying time. — Explanation: The forecast and drying requirement make postponement impractical.

HSPT-R2-002 — Correct: C — Correct Answer: He values the unexpected result they created. — Explanation: The children's positive response helps Eli appreciate the violet night sky.

HSPT-R2-003 — Correct: A — Correct Answer: positioned — Explanation: Mina positioned the sample sheet against the wall so they could view the color.

HSPT-R2-004 — Correct: D — Correct Answer: a complication that prompts a creative solution — Explanation: The missing color forces the partners to redesign the sky imaginatively.

HSPT-R2-005 — Correct: B — Correct Answer: Unexpected limits can lead to worthwhile new ideas. — Explanation: Lacking blue paint leads to a night-sky design that engages viewers.

HSPT-R2-006 — Correct: D — Correct Answer: Cleaned shells or shaped blocks — Explanation: The passage directly names both materials as firm surfaces for young oysters.

HSPT-R2-007 — Correct: A — Correct Answer: Their rough surfaces slow some waves. — Explanation: Slower waves may reduce routine shoreline erosion in suitable locations.

HSPT-R2-008 — Correct: B — Correct Answer: It explains reef benefits, restoration methods, and conditions for success. — Explanation: The passage develops these three aspects in sequence.

HSPT-R2-009 — Correct: C — Correct Answer: work together favorably — Explanation: A project succeeds when water conditions, survival, and monitoring align or combine favorably.

HSPT-R2-010 — Correct: A — Correct Answer: Conditions and oyster survival determine whether the reef develops. — Explanation: Placement alone is insufficient; teams must track survival and changing site conditions.

HSPT-R2-011 — Correct: C — Correct Answer: To explain how imitation can support the development of independent skill — Explanation: The passage presents imitation as temporary structure leading to original choices.

HSPT-R2-012 — Correct: D — Correct Answer: Adapt what has been observed — Explanation: The third paragraph explicitly says a learner must eventually adapt observed methods.

HSPT-R2-013 — Correct: A — Correct Answer: A model is most useful when it leads toward independent choices. — Explanation: The railing comparison shows that support should help learners move independently.

HSPT-R2-014 — Correct: B — Correct Answer: restricting further development — Explanation: A method becomes limiting when failure to adjust it prevents further growth.

HSPT-R2-015 — Correct: C — Correct Answer: can provide temporary support during learning — Explanation: Like a railing, imitation assists progress but is not meant to be held forever.

HSPT-R2-016 — Correct: D — Correct Answer: thoughtful and balanced — Explanation: The author considers both the usefulness and limitations of imitation in a measured way.

MATHEMATICS ANSWERS

HSPT-M2-001 — Correct: C — Correct Answer: 9 — Explanation: Divide first: $24 \div 3 = 8$; then $6 + 8 - 5 = 9$.

HSPT-M2-002 — Correct: A — Correct Answer: 0.35 — Explanation: Dividing 7 by 20 gives 0.35.

HSPT-M2-003 — Correct: D — Correct Answer: 4 — Explanation: Multiplying by 10^3 moves the decimal point three places right, so 0.004 becomes 4.

HSPT-M2-004 — Correct: B — Correct Answer: 72 — Explanation: $2^3 \times 3^2 = 8 \times 9 = 72$.

HSPT-M2-005 — Correct: C — Correct Answer: 10 — Explanation: Substitute: $3(6) - 2(2^2) = 18 - 8 = 10$.

HSPT-M2-006 — Correct: B — Correct Answer: 3 — Explanation: Expand: $10x + 5 = 3x + 26$; then $7x = 21$, so $x = 3$.

HSPT-M2-007 — Correct: A — Correct Answer: $9m + 15$ — Explanation: Monthly charges total $9m$ dollars, and the one-time fee adds \$15.

HSPT-M2-008 — Correct: D — Correct Answer: 75 — Explanation: The rate is $30 \div 4 = 7.5$ kilometers per centimeter; $10 \times 7.5 = 75$.

HSPT-M2-009 — Correct: B — Correct Answer: 52° — Explanation: Linear-pair angles total 180° , so $180^\circ - 128^\circ = 52^\circ$.

HSPT-M2-010 — Correct: D — Correct Answer: 7 centimeters — Explanation: Half the perimeter is 17, so the width is $17 - 10 = 7$ centimeters.

HSPT-M2-011 — Correct: C — Correct Answer: $(-3, -4)$ — Explanation: Reflection across the y-axis reverses the x-coordinate while leaving the y-coordinate unchanged.

HSPT-M2-012 — Correct: A — Correct Answer: 14 cups — Explanation: Three quarts equal 12 cups; adding 2 cups gives 14 cups.

HSPT-M2-013 — Correct: C — Correct Answer: 7°C — Explanation: Add the increase to the morning temperature: $-4 + 11 = 7^{\circ}\text{C}$.

HSPT-M2-014 — Correct: A — Correct Answer: 6 — Explanation: The total is $3(4) + 2(7) + 10 = 36$, and $36 \div 6 = 6$.

HSPT-M2-015 — Correct: B — Correct Answer: $\frac{1}{2}$ — Explanation: Five of the ten cards are not purple, so the probability is $\frac{5}{10} = \frac{1}{2}$.

HSPT-M2-016 — Correct: D — Correct Answer: The median is 8. — Explanation: The two middle values are 7 and 9, whose average is 8.

LANGUAGE ANSWERS

HSPT-L2-001 — Correct: D — Correct Answer: During the long rehearsal, the actors remained focused. — Explanation: A comma correctly follows the introductory prepositional phrase.

HSPT-L2-002 — Correct: A — Correct Answer: The bicycle's tires needed air. — Explanation: The apostrophe before s shows that the tires belong to one bicycle.

HSPT-L2-003 — Correct: C — Correct Answer: Nora packed four things: gloves, boots, a scarf, and a hat. — Explanation: A colon correctly introduces a list after the complete clause.

HSPT-L2-004 — Correct: D — Correct Answer: We toured Yellowstone National Park in August. — Explanation: The park's proper name and the month are correctly capitalized.

HSPT-L2-005 — Correct: A — Correct Answer: Captain Rosa Vega speaks French on Thursdays. — Explanation: The title before a name, language, and day are capitalized correctly.

HSPT-L2-006 — Correct: A — Correct Answer: accommodate — Explanation: Accommodate is correctly spelled with two c's and two m's.

HSPT-L2-007 — Correct: B — Correct Answer: The shelves were nearly identical. — Explanation: Identicle is misspelled; the correct spelling is identical.

HSPT-L2-008 — Correct: B — Correct Answer: The collection of stamps is valuable. — Explanation: The singular subject collection requires the singular verb is.

HSPT-L2-009 — Correct: C — Correct Answer: She and Mateo organized the files. — Explanation: The subject pronoun she is correct because she performs the action.

HSPT-L2-010 — Correct: D — Correct Answer: had checked — Explanation: Past perfect shows that checking occurred before the alarm sounded.

HSPT-L2-011 — Correct: B — Correct Answer: lay — Explanation: Lay is the present-tense verb meaning to place an object somewhere.

HSPT-L2-012 — Correct: C — Correct Answer: We stopped because the road was closed. — Explanation: This sentence states the cause directly without redundant phrasing.

HSPT-L2-013 — Correct: A — Correct Answer: A seed-swap shelf at the public library would help local gardeners share useful resources. — Explanation: This revision clearly states both the proposal and its central benefit.

HSPT-L2-014 — Correct: C — Correct Answer: Ultimately, — Explanation: Ultimately introduces the paragraph's concluding statement about the exchange's overall benefits.

HSPT-L2-015 — Correct: D — Correct Answer: People would leave labeled packets of extra seeds for visitors to take, and those visitors could later contribute seeds from their own

gardens. — Explanation: This revision joins both actions clearly while preserving their logical sequence.

Title: The Spare Key

Text:

Nadia was responsible for opening the robotics room before Saturday's practice. At the school entrance, she reached into her bag and found an empty key pocket. Her teammates would arrive in fifteen minutes.

She retraced her route to the bus stop, watching the sidewalk. Nothing gleamed near the curb. Then she remembered lending her ruler to Theo during Friday's class. She had opened the same pocket to put his ruler away.

Nadia called Theo, who checked beneath their classroom table with a custodian's help. The key was there, but the building was across town. Nadia expected practice to be canceled. Instead, teammate Sol messaged that the library's meeting room was available and their design software worked on tablets.

The team spent the morning revising code and drawing a new sensor mount. They could not assemble the robot, yet they solved two problems that had slowed them all week. On Monday, Nadia collected the key and attached it to a bright orange cord. She had learned two lessons: make important objects difficult to lose, and do not confuse a changed plan with a wasted day.

Section: Reading Comprehension

Stimulus Type: Scientific Passage

Title: How Fog Nets Collect Water

Text:

In some dry coastal regions, fog appears even when rain is scarce. Fog consists of tiny water droplets suspended in air. A fog net captures some of those droplets as wind carries them through a mesh panel.

When droplets strike the mesh, they join with other droplets and grow heavier. Gravity pulls the water downward into a channel, which directs it toward a storage tank. The mesh must allow air to pass while providing enough surface for droplets to collect. A solid wall would force much of the moving air around it.

Fog nets do not create water, and their output varies. Wind speed, droplet size, mesh design, and the number of foggy hours all affect collection. The stored water may also require treatment, depending on how it will be used and what substances are present in the air or on the equipment.

Because performance depends on local conditions, planners test small collectors before installing a large system. Where fog is frequent and other water sources are limited, nets can supplement rather than replace existing supplies.

Title: The Work of Naming Places

Text:

Place names can preserve clues about landscape, language, and human history. A name may describe a physical feature, honor a person, recall an event, or carry forward a word from an earlier language. Yet names that seem permanent often have complicated histories.

The same river or mountain may have been known by several communities, each using a different name. Mapmakers sometimes selected one version for official documents, while local speakers continued using another. Spellings also changed when sounds from one language were represented in the alphabet of another.

Researchers who study place names compare maps, letters, government records, and oral histories. No single source is automatically decisive. An old map may contain a copying error, while a story passed through families may preserve information absent from official records. Comparing sources helps researchers distinguish strong evidence from an appealing guess.

Studying names is therefore more than making a list. It means examining who used a name, when they used it, and why one version became widely recognized. A familiar label on a map may be the final layer of a much longer conversation.

Title: The Unfinished Map

Text:

Leah had promised to draw a map for visitors to the neighborhood garden, but the paths looked different each time she arrived. Wheelbarrows blocked one route; newly planted beds narrowed another. Her first careful sketch was already inaccurate.

She considered waiting until the garden was finished. Mr. Alvarez, who coordinated the volunteers, laughed gently. "A garden is never finished," he said. Instead of drawing every temporary object, he suggested marking dependable landmarks: the stone fountain, the tool shed, and the three old pear trees.

Leah walked the paths again. She noticed that each landmark could be seen from at least one major turn. She redrew the map with bold symbols and added a note explaining that smaller paths might shift during planting days.

On Saturday, a family used the map to find the herb beds without asking for directions. Leah spotted a wheelbarrow resting directly across the route she had drawn. For a moment she frowned. Then the family looked toward the pear-tree symbol, chose the next path, and continued. The map was not a perfect picture of the garden. It was something more useful: a guide that could survive change.

Title: A Different Rehearsal

Text:

When the youth orchestra lost access to the auditorium, Tomas expected the evening rehearsal to be canceled. Their new location, a carpeted community room, had no stage and made every instrument sound strangely quiet. The conductor, Ms. Bell, arranged the chairs in a circle rather than their usual rows.

Without the auditorium's echo, Tomas could hear small details in his own clarinet playing: a breath arriving too early, a note beginning without confidence. He also heard the cellos' rhythm more clearly. During a difficult passage, Ms. Bell asked everyone except the cellos to stop. Then she added each section back one at a time.

By the end of rehearsal, the orchestra still sounded less powerful than it did onstage. Yet the musicians understood how their separate parts supported one another. At the next auditorium rehearsal, Tomas listened for the cellos beneath the brighter sounds. He entered on time and held the final note steadily. The inconvenient room had not helped them practice volume, but it had taught them to listen.

Title: Why Some Cities Map Shade

Text:

On a hot day, two sidewalks in the same neighborhood can feel very different. One may lie beneath mature trees or building awnings, while another receives direct sunlight for hours. To understand these differences, some cities create shade maps.

Researchers may combine satellite images, measurements taken at street level, and computer models that estimate how shadows move as the sun changes position. A useful map must also account for time. A bus stop shaded in the morning may be fully exposed during the afternoon commute.

Shade maps can help planners decide where to plant trees, place shelters, or create safer walking routes during extreme heat. However, the maps do not make those decisions automatically. A proposed tree may interfere with underground pipes, and a shelter must fit on the sidewalk without blocking access. Planners also need information about where people travel and which residents face the greatest heat risk.

For these reasons, shade data works best as one layer in a broader planning process. It reveals patterns that are difficult to notice from a single visit, but local knowledge and practical constraints are still necessary.

- HSPT-V2-035 — Correct: D — Correct Answer: accidental — Explanation: Deliberate means intentional; accidental means unintentional.
- HSPT-V2-036 — Correct: A — Correct Answer: optional — Explanation: Compulsory means required; optional means left to choice.
- HSPT-V2-037 — Correct: C — Correct Answer: engine — Explanation: A battery supplies a flashlight with energy; fuel supplies an engine with energy.
- HSPT-V2-038 — Correct: B — Correct Answer: butterfly — Explanation: A bud develops into a flower, as an egg develops into a butterfly.
- HSPT-V2-039 — Correct: A — Correct Answer: direction — Explanation: A thermometer indicates temperature; a compass indicates direction.
- HSPT-V2-040 — Correct: C — Correct Answer: harbor — Explanation: The other choices are landforms; a harbor is a sheltered body of water.
- HSPT-V2-041 — Correct: D — Correct Answer: bass — Explanation: Soprano, alto, tenor, and bass are vocal ranges.
- HSPT-V2-042 — Correct: C — Correct Answer: quadrilaterals — Explanation: Each figure is a polygon with four sides.
- HSPT-V2-043 — Correct: A — Correct Answer: art — Explanation: Coding is taken by Owen and drama by Mira, leaving art for Paz.
- HSPT-V2-044 — Correct: B — Correct Answer: The alarm is not armed. — Explanation: The stated rule means an armed alarm and an opened door would produce a bell.
- HSPT-V2-045 — Correct: D — Correct Answer: M — Explanation: The constraints force M before J before K before L before N.

QUANTITATIVE SKILLS ANSWERS

- HSPT-Q2-027 — Correct: D — Correct Answer: 49 — Explanation: The differences are 3, 6, 9, 12, then 15.
- HSPT-Q2-028 — Correct: B — Correct Answer: 152 — Explanation: The operations alternate $\times 4$ and -2 .
- HSPT-Q2-029 — Correct: C — Correct Answer: 16 — Explanation: Two interwoven sequences double: 2, 4, 8, 16 and 5, 10, 20.
- HSPT-Q2-030 — Correct: D — Correct Answer: $1\frac{1}{4}$ — Explanation: Each term increases by $\frac{1}{4}$.
- HSPT-Q2-031 — Correct: C — Correct Answer: 0.35×80 — Explanation: Thirty-five percent written as a decimal is 0.35.
- HSPT-Q2-032 — Correct: B — Correct Answer: \$22.00 — Explanation: Each notebook costs \$2.75, and $8 \times \$2.75 = \22.00 .

HSPT-Q2-033 — Correct: D — Correct Answer: 24 — Explanation: The least common multiple of 6 and 8 is 24.

HSPT-Q2-034 — Correct: A — Correct Answer: Quantity A is greater. — Explanation: Quantity A is 32 and Quantity B is 25.

HSPT-Q2-035 — Correct: C — Correct Answer: The two quantities are equal. — Explanation: The middle value of the ordered list is 11.

HSPT-Q2-036 — Correct: A — Correct Answer: Quantity A is greater. — Explanation: Squaring a positive number below 1 makes it smaller.

HSPT-Q2-037 — Correct: D — Correct Answer: The relationship cannot be determined from the information given. — Explanation: Possible dimensions give different perimeters, so the relationship is undetermined.

HSPT-Q2-038 — Correct: A — Correct Answer: Quantity A is greater. — Explanation: The third angle is 80° , which is greater than 75° .

HSPT-Q2-039 — Correct: B — Correct Answer: Quantity B is greater. — Explanation: The volume is 27, while the surface area is 54.

READING COMPREHENSION ANSWERS

HSPT-R2-033 — Correct: B — Correct Answer: The fountain, tool shed, and pear trees — Explanation: The passage explicitly lists these three dependable landmarks.

HSPT-R2-034 — Correct: D — Correct Answer: Its arrangement continues to change as people work. — Explanation: The shifting routes and plantings show that change is normal there.

HSPT-R2-035 — Correct: A — Correct Answer: remain useful despite — Explanation: The map remains useful even when temporary routes change.

HSPT-R2-036 — Correct: C — Correct Answer: test whether Leah's revised map can handle change — Explanation: The obstacle demonstrates that landmark-based guidance still works.

HSPT-R2-037 — Correct: D — Correct Answer: A useful solution can emphasize stable information instead of impossible precision. — Explanation: Leah succeeds by mapping reliable landmarks rather than every changing object.

HSPT-R2-038 — Correct: B — Correct Answer: She places the chairs in a circle. — Explanation: The first paragraph states that she arranges the chairs in a circle.

HSPT-R2-039 — Correct: A — Correct Answer: An imperfect rehearsal space helps musicians notice how their parts connect. — Explanation: The unusual room sharpens listening and improves later performance.

HSPT-R2-040 — Correct: C — Correct Answer: To help players hear how each section contributes — Explanation: Isolating and restoring parts reveals their musical relationships.

HSPT-R2-041 — Correct: B — Correct Answer: powerful sound and careful listening — Explanation: The auditorium supports volume, while the community room exposes details.

HSPT-R2-042 — Correct: A — Correct Answer: A disappointing change leads him to listen more closely and perform more steadily. — Explanation: This includes the setback, lesson, and later improvement.

HSPT-R2-043 — Correct: B — Correct Answer: Shadows move as the sun changes position. — Explanation: The passage explains that a location may be shaded at one time but exposed later.

HSPT-R2-044 — Correct: D — Correct Answer: To explain how shade maps are created and used within broader planning — Explanation: The passage covers map inputs, applications, and limits.

HSPT-R2-045 — Correct: C — Correct Answer: It helps planners focus improvements where people actually need protection. — Explanation: Routes and risk information help prioritize useful interventions.

HSPT-R2-046 — Correct: A — Correct Answer: one type of information among several — Explanation: Shade data is one component of a larger decision process.

HSPT-R2-047 — Correct: D — Correct Answer: It introduces uneven shade, explains mapping methods, then discusses uses and limitations. — Explanation: The paragraphs follow the stated progression from problem through qualified use.

MATHEMATICS ANSWERS

HSPT-M2-033 — Correct: C — Correct Answer: $3\frac{1}{2}$ — Explanation: Multiply $\frac{7}{8}$ by the reciprocal $\frac{4}{1}$ to get $\frac{28}{8} = 3\frac{1}{2}$.

HSPT-M2-034 — Correct: A — Correct Answer: 47 — Explanation: Forty-seven has no positive factors other than 1 and 47.

HSPT-M2-035 — Correct: D — Correct Answer: 13 — Explanation: Perform division and multiplication first: $6 + 12 \div 5 = 13$.

HSPT-M2-036 — Correct: B — Correct Answer: $\frac{2}{5}$ — Explanation: There are 30 students, and $\frac{12}{30}$ simplifies to $\frac{2}{5}$.

HSPT-M2-037 — Correct: C — Correct Answer: 17 — Explanation: Distribute to get $3x - 12 = 2x + 5$, so $x = 17$.

HSPT-M2-038 — Correct: A — Correct Answer: $2n - 7 \leq 19$ — Explanation: Twice n is $2n$, seven less is $2n - 7$, and at most means $\leq$.

HSPT-M2-039 — Correct: D — Correct Answer: 22 — Explanation: The y -values rise by 4 per x ; the rule is $y = 4x + 2$.

HSPT-M2-040 — Correct: B — Correct Answer: $9t + 6 = 60$ — Explanation: Ticket cost is $9t$, with one additional \$6 fee.

HSPT-M2-041 — Correct: C — Correct Answer: 19 — Explanation: Their sum is 180° , so $8x + 28 = 180$ and $x = 19$.

HSPT-M2-042 — Correct: A — Correct Answer: 17 — Explanation: The Pythagorean theorem gives $\sqrt{(8^2 + 15^2)} = \sqrt{289} = 17$.

HSPT-M2-043 — Correct: D — Correct Answer: 202 square units — Explanation: Surface area is $2(4 \times 5 + 4 \times 9 + 5 \times 9) = 202$.

HSPT-M2-044 — Correct: B — Correct Answer: 27 feet — Explanation: Multiply 4.5 inches by 6 feet per inch.

HSPT-M2-045 — Correct: C — Correct Answer: 2 hours 36 minutes — Explanation: From 10:47 to 1:23 is 2 hours 36 minutes.

HSPT-M2-046 — Correct: A — Correct Answer: 12 — Explanation: With $x = 12$, the ordered middle value remains 9.

HSPT-M2-047 — Correct: D — Correct Answer: $\frac{7}{12}$ — Explanation: Seven of the 12 tiles are red or blue.

HSPT-M2-048 — Correct: B — Correct Answer: 6 — Explanation: Sixty percent of 30 is 18 yes votes, so $18 - 12 = 6$ were added.

LANGUAGE ANSWERS

HSPT-L2-031 — Correct: A — Correct Answer: After the final bell, the hallway became quiet. — Explanation: A comma follows the introductory prepositional phrase.

HSPT-L2-032 — Correct: C — Correct Answer: Bring these supplies: paper, tape, and scissors. — Explanation: A colon follows a complete clause that introduces a list.

HSPT-L2-033 — Correct: B — Correct Answer: The two captains' uniforms were ready. —

Explanation: The plural possessive captains' takes an apostrophe after s.

HSPT-L2-034 — Correct: D — Correct Answer: We study French on Tuesdays. — Explanation: A language and a day of the week are capitalized.

HSPT-L2-035 — Correct: A — Correct Answer: My aunt visited Lake Superior during spring break. — Explanation: The family relationship is lowercase without a name; the geographic proper noun is capitalized.

HSPT-L2-036 — Correct: C — Correct Answer: necessary — Explanation: Necessary is the standard spelling.

HSPT-L2-037 — Correct: B — Correct Answer: The committee recommended a separate entrance. — Explanation: Committee, recommended, separate, and entrance are all spelled correctly.

HSPT-L2-038 — Correct: D — Correct Answer: The coach spoke to Elena and me. —

Explanation: The object pronoun me follows the preposition to.

HSPT-L2-039 — Correct: A — Correct Answer: Wearing a reflective vest, the cyclist crossed the bridge. — Explanation: The opening modifier logically describes the cyclist.

HSPT-L2-040 — Correct: C — Correct Answer: Jamal opened the box and removed the label. — Explanation: Both verbs consistently use the simple past tense.

HSPT-L2-041 — Correct: B — Correct Answer: The hawk circled above the field. —

Explanation: Circled states the action clearly and precisely.

HSPT-L2-042 — Correct: D — Correct Answer: The meeting was postponed because of rain.

— Explanation: The sentence expresses the full idea without unnecessary words.

HSPT-L2-043 — Correct: A — Correct Answer: affect — Explanation: Affect is the verb meaning influence.

HSPT-L2-044 — Correct: B — Correct Answer: Sentence 4 — Explanation: The art club's mural is unrelated to reducing lunchroom noise.

HSPT-L2-045 — Correct: C — Correct Answer: After sentence 5 — Explanation: After sentence 5, it summarizes the evidence before the recommendation.

Title: The Borrowed Bell

Text:

Nora found the brass bicycle bell in a box of spare parts at the neighborhood repair shop. Its surface was scratched, but its ring was bright and clear. She wanted it for the used bicycle she was restoring for the spring parade. Mr. Chen, the shop owner, let her borrow it while she searched for one of her own.

For two weeks, Nora polished the bicycle, adjusted the brakes, and practiced riding slowly beside younger cyclists. The borrowed bell seemed to complete the project. Then, the afternoon before the parade, a boy entered the shop holding a faded photograph. He explained that the bell had belonged to his grandfather and had been donated accidentally with several tools.

Nora's hand rested on the bicycle handle. Without the bell, the bicycle would look unfinished. Still, she loosened the small clamp and handed it over. The boy rang it once and smiled at the familiar sound.

Mr. Chen offered Nora a plain new bell from beneath the counter. She attached it that evening. During the parade, its tone was not as musical, but each time she rang it to warn a walker, Nora remembered that restoring something could mean returning it, not merely making it shine.

Title: Seeds That Wait for Smoke

Text:

In regions where wildfires occur naturally, some plants produce seeds that can remain inactive in the soil for years. Heat alone awakens certain seeds, but others respond to chemicals carried in smoke. This response helps new plants emerge after a fire has opened space and released nutrients.

Scientists study the process by exposing seeds to smoke-infused water. The water contains dissolved compounds from smoke but does not expose the seeds to flames. Researchers can compare treated seeds with untreated ones and record how many germinate. Such experiments have identified a family of compounds called karrikins that can trigger germination in several species.

A response to smoke is not useful in every habitat. Where fire is extremely rare, waiting for smoke could prevent a seed from sprouting when ordinary conditions are favorable. Even in fire-prone landscapes, different species rely on different cues, including seasonal temperature changes or physical damage to a hard seed coat.

Understanding these cues can assist restoration projects. Workers may improve germination by treating selected native seeds before planting them. However, they must match the treatment to the species and local environment; smoke water is a tool, not a universal recipe.

Title: The Notes in the Margin

Text:

As a young museum assistant, Elena Ruiz spent many afternoons cataloging letters written by travelers a century earlier. The official records listed dates, destinations, and donors, but Ruiz became interested in smaller marks: hurried corrections, sketches along the edges, and unfamiliar names added in pencil.

She began keeping a separate index of these details. At first, the index seemed too minor for an exhibition. Then Ruiz noticed the same name in letters from three different collections. Further research showed that the woman named there had translated conversations and arranged transportation for several expeditions, although published accounts barely mentioned her.

Ruiz did not claim that every mark would lead to a major discovery. Many remained unexplained. Still, she persuaded the museum to include high-resolution images of entire pages in its digital archive, rather than displaying typed transcripts alone. This allowed other researchers to examine handwriting, placement, and revisions.

Years later, Ruiz directed the archive. She often reminded new assistants that cataloging required both accuracy and curiosity. A record should help people locate what is already known, she explained, but it should also preserve the clues that may change what people know next.

HSPT-R2-061 — Correct: C — Correct Answer: the potential importance of details that seem minor — Explanation: Seemingly minor marks lead to a discovery and shape Ruiz's archival practice.

HSPT-R2-062 — Correct: D — Correct Answer: Careful records should support present knowledge while leaving room for future discovery. — Explanation: Ruiz combines reliable cataloging with preservation of clues for later research.

MATHEMATICS ANSWERS

HSPT-M2-049 — Correct: D — Correct Answer: 60 gallons — Explanation: The added 18 gallons equals $\frac{3}{10}$ of capacity, so capacity is $18 \div 0.3 = 60$.

HSPT-M2-050 — Correct: B — Correct Answer: 6.2×8.1 — Explanation: Estimating gives $6 \times 8 \approx 48$, and the exact value 50.22 is closest to 50.

HSPT-M2-051 — Correct: A — Correct Answer: 8:15 — Explanation: Scale 4:7 to 8:14; combining with 14:15 gives a:c = 8:15.

HSPT-M2-052 — Correct: C — Correct Answer: $3x - 17$ — Explanation: Distribute and combine: $8x - 12 - 5x - 5 = 3x - 17$.

HSPT-M2-053 — Correct: D — Correct Answer: 15 — Explanation: Substitute -3: $(-3)^2 - 2(-3) = 9 + 6 = 15$.

HSPT-M2-054 — Correct: B — Correct Answer: $\frac{12}{r} + \frac{18}{r+3}$ — Explanation: Time equals distance divided by speed for each part of the ride.

HSPT-M2-055 — Correct: A — Correct Answer: 8 — Explanation: Let width be w: $2[(2w+3) + w] = 54$, so $6w + 6 = 54$ and $w = 8$.

HSPT-M2-056 — Correct: C — Correct Answer: 8 — Explanation: The exterior angles total 360° , and $360 \div 45 = 8$.

HSPT-M2-057 — Correct: D — Correct Answer: 78.5 square units — Explanation: The diameter is 10, so radius is 5 and area is $3.14 \times 5^2 = 78.5$.

HSPT-M2-058 — Correct: B — Correct Answer: 15 — Explanation: The scale factor is $\frac{9}{6} = 1.5$, so $EF = 10 \times 1.5 = 15$.

HSPT-M2-059 — Correct: A — Correct Answer: 10 ounces — Explanation: Five pounds is 80 ounces; $80 \div 8 = 10$ ounces.

HSPT-M2-060 — Correct: C — Correct Answer: 221 miles — Explanation: The rate is $156 \div 6 = 26$ miles per gallon; $26 \times 8.5 = 221$.

HSPT-M2-061 — Correct: D — Correct Answer: 42 — Explanation: The floor area is 14.7 square meters; $14.7 \div 0.35 = 42$.

HSPT-M2-062 — Correct: B — Correct Answer: 85 — Explanation: The total must be 420; the four known scores total 335, leaving 85.

HSPT-M2-063 — Correct: A — Correct Answer: $1/4$ — Explanation: Each spin has probability $3/6 = 1/2$ of even; $1/2 \times 1/2 = 1/4$.

HSPT-M2-064 — Correct: C — Correct Answer: The mean increases by 5, and the range stays the same. — Explanation: Adding a constant shifts the mean by that constant but does not change the spread.
